16th Annual Western New York Construction Career Days

October 2nd and October 3rd, 2024

Purpose: Construction Career Days is an event to introduce 11th & 12th grade high school students to the vast career opportunities and unlimited potential for advancement within the construction industries.

Supervised by professionals, students will participate in:

- Hands-on activities like bricklaying, welding, painting and carpentry
- Operation of a backhoe
- Operation of mini-excavators and skid steers

Exhibitors will display the newest technologically advanced equipment that is utilized in constructing highways and buildings. Also, the latest “high tech” tools used to build today’s modern structures will be exhibited. Skilled trades’ people demonstrate crafts such as bricklaying, cement finishing, welding, plumbing, electrical installation, material testing and pipe laying. Colleges and employers also make themselves available to discuss the process of career and educational advancement.

Time: 9:00 a.m.—1:00 p.m.

Location: Operating Engineers Training Center
2342 Pleasant Ave.
Lake View, NY 14085
